THROTTLE PLATE / AIR INTAKE CLEANER

PT#17026

RLO#1085909

UNIT 4.5oz

CASE SIZE 12

PALLET UNITS 2232

RED LINE[®] THROTTLE PLATE / AIR INTAKE / CARB & CHOKE CLEANER is a unique three in one cleaner that is safe for use on all Air Intake and Carburetor components. This product is especially formulated to clean and completely flush out and remove any dirt, carbon, gum or varnish that could restrict or interfere with the precise operation of the Air Intake System.

This Product Is Oxygen Sensor, Catalytic Converter, EGR Valve and Teflon[®] Coated Surface Safe!

RECOMMENDED SERVICE PROCEDURE:

- 1 Run engine to normal operating temperature. With engine off, remove air intake boot. Place clean shop cloth under area being cleaned to absorb run-off. Spray on throttle plate and exposed areas; air horn, choke plate, etc... with generous amount of cleaner. Remove idle air control valve, clean and replace. Start engine and spray remaining product into intake throat using enough product as to NOT stall the engine, Replace intake boot and drive.

WARNING. This product can expose you to chemicals including Naphthalene (CASRN 91-20-3) which is known to the State of California to cause cancer, and Ethylene glycol (CASRN 107-21-1) which is known to the State of California to cause birth defects or other reproductive harm.
