

**Keep Your Vehicle's Engine  
Clean on the Inside with**

**SMART BLEND<sup>®</sup>**  
SYNTHETICS

**ENGINE FLUSH**  
Preventative Maintenance Service

**Quickly Removes  
Engine Sludge & Deposits  
Preparing the Engine for New Oil**

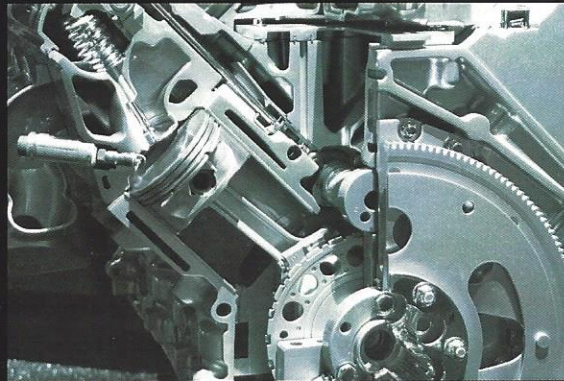

One Formula Engine Flush, when incorporated as part of a routine Preventative Maintenance Service Program helps reduce the presence and build up of sludge and harmful deposits, in automotive engine applications.

**SMART BLEND<sup>®</sup>**  
SYNTHETICS

**ENGINE FLUSH**  
Preventative Maintenance Service

- **Removes Sludge & Harmful Deposits**
- **Prepares Engine For New Motor Oil**
- **Helps Maximize Engine Performance and Service Life**

One Formula Engine Flush is recommended by Smart Blend Synthetics for use at 15,000 mile service intervals as part of a routine Preventative Maintenance Service Program.

Consult your service provider or refer to the vehicle manufacturers owners manual for oil change service interval recommendations. The use of One Formula Engine Flush is not recommended for use in vehicles with odometer readings exceeding 100,000 miles or in vehicles that have not previously been serviced in accordance with Original Equipment Manufacturers oil change service recommendations.

**FOR PROFESSIONAL USE ONLY**
