

Product Fact Sheet

Synthetic M-V ATF Converter

Smart Blend Synthetic Automatic Transmission Fluid M-V Supplement is a uniquely blended synthetic product specifically formulated to convert and enhance Dexron III® /Mercon® fluid (1oz. per quart) into a Mercon V® type fluid, eliminating the need to stock Mercon V®. Synthetic Automatic Transmission Fluid M-V Supplement extends the frictional stability of the fluid, preventing torque converter lock-up shudder and extends fluid life, saving time and money.

Converts Dexron III® /Mercon® Automatic Transmission Fluid (ATF) into a Mercon V® Type Fluid. Saves Time & Money, Eliminates the Need to Stock Mercon V® Fluid.

- Prevents Torque Converter Lock-Up Shudder.
- Improves Low Temperature Shifting.
- Extends Frictional Stability and Life of the Fluid.

Mercon V® was introduced by the Ford Motor Company in 1997 for use in 1997 and later A4LD-E (4R44E) and 5R55E transmissions. Mercon V is also required for 1998 vehicles with AX4N and AX4S transaxles, plus the AODE-W (4R70W) transmission.

Note: Mercon V® fluid can be used where Mercon® is recommended, but Mercon cannot be used to replace Mercon V fluid.

Package

12 - 10 oz bottles / cs

Part #

6500
